

# South Dakota **Career Peeks**

*Take a peek at . . .*

**Architects** design homes, office buildings and even things like bridges and parks. They plan structures that are useful and safe for people as well as nice to

look at. They decide what materials structures will be built with. They draw detailed drawings called blueprints, often with the help of drafters.

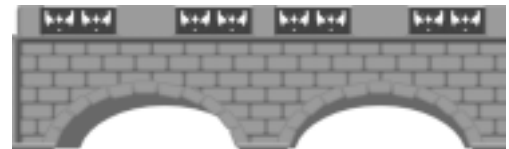

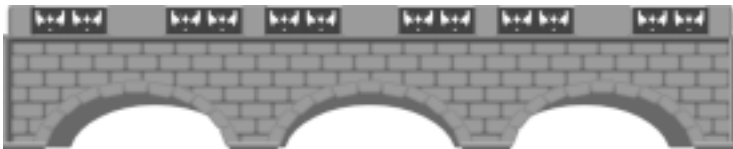

Draw a house that is **longer** than this one.

Loop the apartment building that is **longer**.

Use a blue crayon to loop the bridge that is shorter. Use a red crayon to loop the bridge that is longer.

*what you can become!*
